Once again Adam and I enjoyed a wonderful road trip this summer. We drove to Coeur d'Alene Idaho where we stayed a couple of nights playing golf and enjoying one of the most beautiful areas ever. We saw 2 of the biggest Globosa spruce I've ever seen flanking the doorway to the pro shop, Adam's 6' body is dwarfed by this specimen. We traveled through Montana, where the sky really is BIG, to Wyoming to play more golf at the foothills of the Grand Teton Mountains. We celebrated our 8th anniversary there then headed to Steamboat Springs Colorado for 4 days, for guess what, more golf! We made our way to Grand Lake Colorado for a wedding then decided to head back to Coeur d'Alene for the great beauty and golf. We finally made it home after 1 more stop in Walla Walla Washington for golf and dinner at one of our favorite places. It was a great time away from our daily life but there is no place like home!
